Note: Many of these hotels are "SUITES" hotels. This means that the hotel rooms are bigger than average, with a Bedroom, Bathroom and Living Room with small kitchen. The Bedroom will come

in either a large King Size bed or two Queen size beds. The living room will either have a sofa that can be converted into a Queen size bed and/or pull away beds that they can set up in the living room. All of the downtown Jersey City hotels are but a short walk from a supermarket. Thus, even if these hotels are somewhat expensive you can easy share 4 people in a suite. So a \$160 per night room becomes a \$40 per night on an individual basis. Even lower, if your party is very friendly.

Note: These 3 hotels are all on Tonnele Ave, which is a bypass Truck route also known as US1 & US9, on most signs US 1/9.

They are all located in the section that is between the Tonnele Circle (where the connection to the Holland Tunnel is located) and NJ3 (which is where the connection to the Lincoln Tunnel and New Jersey Turnpike exit 16E are located).

This route is a divided roadway with several traffic lights. All U-turns and left turns are from the right lane. The exceptions are at either end. The Tonnele Circle is a traffic circle. Going north, the connection to NJ3 is the left lane.

Other locations which are not very far away and that have lots of hotels are Secaucus NJ which is on NJ3 just past the NJ Turnpike Exit 16E and the Meadowlands area just after crossing the Hackensack River. Giant Stadium etc are all located in that area.
